Subject: John Broyles

James,

Just a quick note as I am straightening up the office today and came across your card. First, thank you for the business partnership that is coming along nicely between Culp and ULoft. It is greatly appreciated! Second, I must tell you that it is also greatly appreciated that you have John Broyles!

John is a pleasure to call on and a most gracious person to do business with. That doesn't mean that he can't make me jump through hoops once in a while for him, but it's never been a problem to do that, because it's John. You are very fortunate to have him at ULoft and I just wanted to hear it from someone on the other side.... the other side of course meaning fabrics, which is often referred to as the "Dark Side" these days, it's certainly brighter when having to work with someone like John, and of course ULoft as a whole.

Hope you have a great holiday next weekend, and hope to see you in High Point!

Sincerely,
Pat Naples
