

UNIVERSITY LOFT COMPANY
DEFENSE QUARTERS

A LEADER IN THE FIELD

Our GSA product lines blend steel, wood and laminate for strength and style

SERVING THOSE WHO SERVE US

Made in America
by Americans
For America

Our Company

University Loft Company is a world leader in the government contract furniture market. Since our inception in 1986 we have seen extraordinary growth in all areas of the business. We provide customers with excellent customer service and put quality first in our furniture production.

University Loft Company is always thinking of new ways to improve the functions of the furniture that we provide. An example of this is our standard tool-less bed that is adjustable, allowing the customer

to maneuver the bed to their desired height. The single beds can easily be transformed into bunk beds, lofts, and complete home offices fitting into any configuration you might need. Our customers may not be able to see the inside of every piece of furniture we build, but we build it as if they could. Taking extra steps in our commitment to quality produces a far superior product. It is our goal to excel at what we do and improve on every level our customer's experience with University Loft Company.

Mission Statement

University Loft Company is committed to contributing to the economic growth of the local Community, the United States, and our team members by providing superior furniture at extremely competitive prices, with an unmatched level of customer service and satisfaction.

THE ENVIRONMENT

University Loft Company has taken a proactive approach to the environment by implementing a Green Plan. This green plan outlines how we as a company will do all we can to ensure we do not contribute to the demise of the environment.

HOW WE DO BUSINESS

University Loft Company believes in offering the best quality and customer service. ULC maintains workforce standards and benefits throughout the globe, including our Malaysia office. We comply with wage standards, 40 hour work week schedules, 401K, and Social Security.

STUDENT HOUSING

We provide furniture to the student housing market across the United States. We pride ourselves on making quality furniture that is durable and safe enough to withstand the everyday wear and tear of student life.

GSA

At ULC, we are proud to provide furnishings to the government sector. We specialize in Whole Room Concepts and carry over \$5 million worth of inventory to assure quick shipment.

MASS MERCHANT

ULC has expanded in the marketplace and now our quality products are featured in mass merchant stores across the country.

World HQ

Greenfield, Indiana, USA

University Loft: An American Company Committed to Innovating World Class Furniture!

Welcome, and thank you for checking out our catalog of quality furniture and related products from University Loft Company. At ULC, we've been at the forefront of innovative furniture design and manufacturing for more than a quarter century, serving college and university, government and military,

hospitality, and residential customers. In this catalog you'll find our newest products designed to fit your lifestyle needs today – and designed to last for years to come.

As you flip through these pages, remember that University Loft Company is built on these cornerstones of commitment:

WE'RE COMMITTED TO PRODUCING TOP-QUALITY FURNITURE THAT PROVIDES THE BEST OVERALL VALUE.

By using superior strength materials emphasizing solid wood construction, along with state-of-the-art construction methods, University Loft delivers furniture that stands the test of time.

WE'RE COMMITTED TO MANUFACTURING FURNITURE IN AMERICA

Simply put, we're proud to be an American company manufacturing products in the American heartland. We're also proud to have offices, production facilities and customer markets worldwide where we can expand the reach of American ingenuity, style and quality.

**WE'RE COMMITTED TO BE-
ING RESPONSIBLE STEW-
ARDS OF OUR ENVIRONMENT**

At University Loft Company, we use a hardwood Environmentally Farmed Timber that's stronger than Northern Red Oak! Even better, our EFT hardwood grows faster, yields more and can be used for latex production during its growth cycle.

**MOST IMPORTANTLY, WE'RE
COMMITTED TO YOU**

We're committed to being responsive to your unique needs, your individual

concerns and your furniture-buying challenges. Whether you are a residential consumer choosing a bedroom set for your growing child, a procurer of furniture for military housing, or a college residence life furniture buyer, we're committed to making your furniture buying experience more satisfying.

When all is said and done, we hope you'll recognize that our business isn't really about furniture; it's about the people who entrust University Loft Company to outfit the personal spaces where they live, work

and play. To remain worthy of that trust, we are always learning, always innovating and always improving... our environment, our products and our service. It's what you expect of us and it's what we demand of ourselves.

Thank you for choosing University Loft furniture.

B. 727TV60 OTTOMAN

20"Diameter 18"H

11 gauge steel springs in back ensures lasting comfort

Precision tailoring includes more stitches per inch to meet contract standards, lock-stitched seams to prevent raveling, and unique sewing techniques that eliminates the lumps and bumps that result when using staples to tailor furniture.

Heavy 8.5 gauge steel springs in seat provide strength and flexibility

All Dacron backs are encased and "compartmentalized" in bags to prevent fiber migration and shifting of the padding

Velcro secured fabric

Seats and backs contain solid hardwood spring rails

SUTTON 727

The Sutton features graceful solid wood arms and tailored seat and back. The series can be ordered with or without arms. The perfect look for lounges and lobbies. Choose from hundreds of different patterns in wide array of colors. The covers are easy to clean, repair, or replace due to Velcro® Technology.

3D Space Planning

VISUALIZE

PLAN

TAKING YOUR VISION TO THE NEXT LEVEL

University Loft Company specializes in using 3D technology to help you plan your next renovation or new construction project.

With this service, you will be able to visualize your space with our furniture before undergoing major construction.

You will work with one of our knowledgeable representatives to determine what furniture will work best for your needs.

Next, we pass your project dimensions and job specifications onto our media department. It's at this point that your blueprints turn into a complete 3D visual that shows you exactly how our product will fit into your space.

IMPLEMENT

Contact your sales representative today to find out more about our 3D Space Planning services.

UPHOLSTERY FABRIC

Once you have chosen the style of your upholstery, the next step is choosing the perfect fabric. University Loft Company has hundreds of contract grade fabrics and vinyls for you to choose from, ensuring that you never have to choose quality over style. A variety of choices are available on our web site at www.uloft.com.

If you have a specific pattern or color scheme in mind, we can arrange for fabric swatches to be sent straight to your site.

FABRIC TERMS:

GRADE: Grade is determined by the quality and cost of the fabric. 'Contract Grade' refers to very durable fabrics suitable for furniture placed in public locations.

QUALITY: The fabric quality is determined by testing the fabric. The 'double rub' test is performed by a machine simulating the seating motion of normal ware.

SCOTCH GUARD: is used for repelling spills and stains on any fabric surface.

VELCRO® UPHOLSTERY: is a method for attaching fabric coverings to frames without using staples or tacks. Unlike staples or tacks Velcro® attached fabric will not tare at stress points and allows the customer to replace damaged, stained or worn coverings.

PLEASE CONTACT YOUR SALES REPRESENTATIVE OR PROJECT MANAGER FOR FURTHER DETAILS

800-423-LOFT (5638).

QUALITY ASSURANCE FEATURES

MODULAR FRAME CONSTRUCTION

- Arms may be removed for delivery or any necessary adjustment
- Double side rails provide extra strength
- Hardwood spring rails tenon joined at each side and screwed to center support
- CNC machined shaped parts for consistency

VELCRO® TECHNOLOGY

- All upholstered pieces have separate sewn covers which may be replaced without extensive labor or upholstery costs
- Replaceable sewn cover may be installed by the customer with ease
- Tailoring adjustments and re-upholstery are simplified

CONSISTENT QUALITY

- Tailoring is improved by sewing outside arms to top arms, and outside backs to inside backs eliminating the need for metal tack strips
- Unitized sewing improves the look of arm and back upholstery, as well as skirted styles
- Pre-fabricated foam components for arms and back create smooth, consistent look and feel
- 8.5 gauge springs are used in the seat and 11 gauge springs are used in the back of our upholstered furniture

FOAM & POCKETED SPRING CUSHIONS

The seating is a combination of high-density polyurethane foam and pocketed steel coil inner-springs. Each steel coil is encased in its own non-woven fabric pocket, which allows each spring to work independently.

UNIVERSITY LOFT UPHOLSTERY CRAFTSMANSHIP

- Seats and backs contain solid hardwood spring rails
- All removable pillows are zippered using a hidden pocket for easy adjustment access or replacement
- All Dacron backs are encased and “compartmentalized” in bags to prevent fiber migration and shifting of the padding
- Sides and backs are reinforced and padded to provide a 360° elegant look
- Machine positioned spring clips provide comfort and stability
- Heavy 8.5 gauge steel springs in seat provide strength and flexibility
- 11 gauge steel springs in back ensures lasting comfort
- Fiber-wrapped 2.0" high density CAL117 compliant (fire retardant) cushion foam
- Fiber-blown pillows provide comfort and consistent shape
- Precision tailoring includes more stitches per inch to meet contract standards, lock-stitched seams to prevent raveling, and unique sewing techniques that eliminates the lumps and bumps that result when using staples to tailor furniture.
- Velcro® Technology allows for easy adjustments and affordable fabric replacements

Need to replace fabric? With University Loft's Velcro® appointed coverings, changing upholstery fabric has never been easier.

STEP 1

Unscrew feet

STEP 2

Remove bolts securing arms

STEP 3

Remove arms from chair/sofa body

STEP 4

Remove fabric from body of chair/sofa
Replace with new fabric

On the Road to Style

In the classic poem, *'The Road Not Taken'*, Robert Frost writes:

*Two roads diverged in a wood, and I –
I took the one less traveled by,
And that has made all the difference.*

In life there are, indeed, forks in the road. Since 1994, University Loft Company has chosen the road less traveled – the eco-friendly "green" path – because we believe it makes all the difference to our planet and our customers.

Our Green Initiatives drive us to use Environmentally Farmed Timber – 100% certified hardwood from sustainable and renewable forests, along with bio-based foam cushions and recycled fabrics. Best of all, we do it with that unmistakable University Loft Style!

To learn more about our Green Plan, explore this catalog or visit uloft.com.

WWW.ULOFT.COM

Let's take a closer look at how our environmental commitment impacts our fabric and soft material choices:

SUSTAINABLE OR ORGANIC? WITH ULC FURNITURE AND FABRICS YOU GET BOTH

At University Loft Company we pay particular attention to the fibers we use and how they are produced and woven into fabric. Typically, the term "sustainable" deals more with the production and manufacturing ends of the supply chain; while "organic" relates to the planting, growing and harvesting of the fibers. We differentiate between the two by carrying the Planet Earth™ brand for all of our sustainable products and the Eco-Luxe™ brand for our organic products.

While natural fibers such as cotton, linen, hemp and bamboo (among others) are biodegradable, they are not considered sustainable if they contain unacceptable levels of harmful chemicals in their current form that could harm the environment in their next stage of life. In other words, to be biodegradable or recycled is not enough because most of the environmental impact comes from the dyeing and

finishing of the fabric.

For fiber to be considered "organic", it must be raised and harvested in accordance with the strict standards of one or more of many certification companies or organizations. These entities maintain standards that ensure there will be little or no impact to the soil in which the plants are grown, the surrounding environment in which they are raised, and to the workers who harvest and bring the fibers to the next level of the supply chain.

There are often guidelines that producers must follow to make certain that certified organic fibers remain separate throughout the production process, from spinning and weaving of yarn, to the dyeing and finishing of the fabric. Just as a product should only be called "organic" if it has been certified, it is also important that the percentage of organic fiber be disclosed. University Loft Company's premium Eco-Luxe™ brand will carry fabrics that contain 100% certified fibers.

GOT STANDARDS? WE DO!

The environmental impact caused by the dyeing and finishing of textiles varies throughout the world. To address this issue, the Global Organic Textile Standard (GOTS) has emerged as the world's leading processing standard for textiles made from organic fibers. GOTS defines high-level environmental criteria along the entire organic textiles supply chain and requires compliance with social criteria as well. Only textile products that contain at least 70% organic fibers can become GOTS certified. Without such a standard, it might be true that a fabric is woven with organic or biodegradable fiber, but its impact on the environment can-

not be complete without evaluating its processing after weaving.

At ULC, all of our natural fiber fabrics are dyed to the GOT Standards. We use non-Chlorine bleach and biodegradable scouring agents to prepare our fabrics for dyeing and finishing. We do not use mercerization or other highly caustic processes during the processing of our fabrics. The dyes we use are all low-impact without heavy metal content. What's more, they are processed with little or no salt and a minimum of auxiliary chemicals that require the lowest possible filtration of the water. And from an energy efficiency standpoint, our dyers utilize on-site heat reclamation and water filtration using modern, efficient equipment.

At University Loft Company, we continually seek innovative eco-friendly technology throughout the supply chain. For example, the Protura™ yarns we feature in certain fabrics allow more dye to permanently penetrate the fiber. Thus, less dye is required and lesser amounts of energy and chemicals are necessary to keep the dye in the fabric and treat the water.

Sustainable furniture production. Organic fabrics. With University Loft Company you get both. And it makes all the difference to our planet.

Planet Earth™ and Eco-Luxe™ are registered trademarks of Treo Textiles International LLC. Protura™ is a registered trademark of Clovertex LLC.

WHY?

VISIT UNIVERSITY LOFT COMPANY TO SEE WHAT'S NEW FOR 2017,
AND LEARN WHY WE'VE BEEN THE BEST FOR OVER 31 YEARS

VISIT OUR HEADQUARTERS IN THE HEARTLAND

No matter where you call home, you can always come "back home again in Indiana." That's where you'll find the University Loft Company headquarters and primary production facility – squarely in the American heartland, in Greenfield, Indiana.

Our Greenfield facility boasts more than 500,000 square feet of manufacturing and warehousing space; and our corporate offices and product showroom are right there under the same roof. Of particular interest to visitors is our 58,000 square foot showroom. It's the perfect place to view ULC's modular student furniture product lines all in one place. With more than 30 student room mockups (plus a student apartment setup), we make it easy for you to envision how University Loft furniture will enhance student living on or off-campus at your college or university.

Plan your visit to University Loft's headquarters in the heartland, or arrange to have our Mobile Showroom at your next campus event. Contact a representative today at 800.423.LOFT (5638).
