COMMITTED TO QUALITY

By using superior materials along with state-of-the-art construction methods, University Loft delivers furniture that stands the test of time and is the industry benchmark providing the best overall value.

For more than 37 years, University Loft Company has been bringing ingenuity, style, and quality to our customers across the globe. From our manufacturing plants in the heart of America to our facilities overseas, we have grown our footprint to provide the best products and the best experience for our customers.

ENDLESS POSSIBILITIES

THE TOOL-LESS SYSTEM™

The Tool-Less System™ allows you to quickly go from one height to the next without the use of tools. Simply choose between the 11 height settings, place the spring or bedrail over steel dowels and tap with hand into place to lock, and with our steel bunking pins, quickly loft your bed into endless configurations.

BED FEATURES

University Loft Company is proud to present a solid wood, modular design and Tool-Less Bed System™. The Graduate Series offers residents unique options to optimize space, storage, and function to meet any need.

3"X3" BED POST

WHY SAFETY?

Our bed end is constructed with several safety features. First, the post is 3" x 3", offering greater surface to surface contact for improved sturdiness. Additionally, the bed end features four spreader rails that meet federal safety regulations and leads the industry in durability.

PASSING THE TEST

In an independent lab test, EFT tested stronger than Northern Red Oak, and the results were measured in newtons as force, in which the meter showed LB/FT to demonstrate the force needed to pull a screw from the wood. EFT broke at 160 lbs. of pressure, while Northern Red Oak snapped at under 140 lbs. of pressure. This test proves that EFT is in fact stronger, more durable, and able to withstand the rigors of extreme use without breaking down. Just look at this bunk bed hold up under the 4 tons of a cargo container placed on top of it.

BUILT TO LAST

100% solid wood equals great value. This product has a 30 year life and is the best in on-campus housing available today with solid wood drawers, sides, and fronts. High-pressure laminate tops allow for very heavy-duty use. These tops have a 10 year warranty which can be upgraded to 25 years.

A BETTER OPTION

It is the responsibility of all mankind to be good stewards of our planet, and at University Loft Company we take that very seriously. Our furniture is made from Environmentally Farmed Timber ensuring the natural beauty of the forest is preserved for all to enjoy. Independent lab studies have shown our farmed timber to be stronger than Northern Red Oak. We work with both Malaysian Timber Certification Council and the Forest Stewardship Council to ensure that we're not adding to the deforestation of our planet. Since 1994, over 1200 colleges and universities have gone green by partnering with University Loft Company.

This demonstrates the sustainability of this natural resource. Although many logging companies are using forestry management practices now, which is a good start, it only includes planting 6 oak seedling trees for every one cut down. This provides an argument for those practicing this, that there are more trees than ever. Yet, it will still take at least 60 years for one of these trees to reach a harvestable diameter. In this time, 3 full-sized HB trees could be harvested and ready for production. This is the best way to sustain a wood supply for continued furniture production without depleting the world's forests.

THE LEADING EDGE IN STUDENT HOUSING
